

control.IT bietet Unternehmen der Immobilienbranche
umfassende Lösungen und Dienstleistungen für das Portfoliomanagement.

Take the first step toward your future career at control.IT! Continue to develop your skills and your career together with us.

To strengthen our team and for an immediate start, we are currently looking for:

SAP FI/AA Specialist Financial Services (m/f)

Your tasks:

For our customers you will take charge of the Second Level Support and you will support their projects with regard to the expansion and restructuring of their systems. Moreover, you will coordinate the co-operation with our hosting partner and other consulting companies who accompany and support our projects. In addition to this you will actively help us to expand the section, you will support the sales department and you will develop concepts for solutions. Your main task will be the integration of the system; on the import side referring to property managers as well as the interaction with our data warehouse including all used functions.

Your profile:

Job applicants should have an business management or IT-degree or a comparable training incl. several years of professional experience. You are characterized by a comprehensive experience in the application of SAP FI/AA in the field of financial services (ideally in the investment sector). Our national and international customer projects require an occupational mobility from your side and you are not afraid to apply your good English knowledge on the international stage. From the professional point of view you should be familiar with interfaces to SAP and from the system. A very good knowledge of MS Excel and practical experience in SQL are of a great advantage. A responsible way to work as well as a high degree of commitment and team spirit complete your profile.

Our offer:

With our corporate culture we will support you to develop your potential – because design flexibility, flat hierarchies, further education and internationality are firmly anchored in it. Look forward to challenging projects and living collegiality in an international environment. We offer our employees a secure job as well as profit-sharing in addition to the remuneration. Actively join us in shaping the future; together we can reach our goal!

Have we awakened your interest?

Great, then take the chance to convince us that you are the ideal candidate. Please send your detailed application along with your salary expectations to startpunkt@controlit.eu, attention Ms. Langer.
